ABOUT ME

I am a front-end developer with a huge passion for web development, and I am thrilled to share that I am actively seeking new opportunities in the field. With a strong foundation in molecular biology and expertise in HTML, CSS, JavaScript, React.js, Git, and GitHub, I am eager to combine my scientific knowledge with the dynamic world of web development.

WORK EXPERIENCE

Lab technician - internship

Sep 2023 - 1 week

Intern

Internship in Khaldi abd el aziz hospital's laboratory where they taught us what we do and how to deal with everything in the lab, for example: FNS, ABO, Biochemical analysis, and emergencies, as well as learning and experiencing the great team work and responsibility.

E-business Manager

Nov 2020

Alex expertise company - tebessa

It was a good experience where I trained on using the computer in a smooth manner. I also got used to following instructions as guided by a technical team.

Front end developer

Feb 2021 - STILL

Freelancer

I realized the incredible potential for innovation and creativity in web development. I have immersed myself in coding, building interactive web experiences using HTML, CSS, and JavaScript. I have also honed my skills with learning React.js, enabling me to create dynamic and user-friendly applications.

Local/remote english teacher

Oct 2021 -2022

ZN Private School - tebessa

It is actually an awesome experience teaching bacaloriate and BEM and primary students the real English with it's basics, grammar, conjugation, orthography.
